

Wednesday October 8th, 2014

10.00-11.00 Registration

11.00-11.10: Welcome and info

11.10-11.30 **Brian Rudolph**, CP Kelco: "Warm water seaweed farming"

11.30-11.50 **Anne Mette Langvad**, Central Denmark Region: "Central Denmark region's action on bioeconomy under development"

11.50-12.10 **Michele Seghetta**, Aarhus University, Roskilde: "Bioextraction potential of macroalgae in Denmark - an instrument for circular nutrient management"

12.10-13.50 Lunch buffet

13.50-14.10 **Peter Schmedes and Teis Boderskov**, Hjarnø Havbrug: "IMTA at Hjarnø Havbrug"

14.10-14.30 **Jens Legarth**, Fermentationexperts: "Marine proteins"

14.30-14.50 **Klaus Lüning**, Sylter Algenfarm: "European aquaculture of *Saccharina* for food industries: chances and problems"

14.50-15.10 **Jennifer Champenois**, CEVA: "Design and trial of a new seaweed production structure in the EnAlgae project"

15.10-15.30 **Miguel Verhein**, Algasol: "Algasol PBR's the platform for low cost industrial scale micro algae production"

15.30-16.00 Coffee break

16.00-16.20 **Per Andersen**, Orbicon: "Environmental impact assessment and internal inspection in relation to seaweed culture in Denmark – case study: Hjarnø Hage seaweed culture"

16.20-16.40 **Annelise Chapman**, Møreforskning AS: "ALSMÅK - Use of seaweeds as local food ingredients in Western Norway"

16.40-17.10 **Susan Holdt**, Technical University of Denmark: "Year-round variations in the amino acid profile and protein nutritional value of *Saccharina latissima* cultivated in a commercial IMTA system"

17.10-17.45 **Jonas Edvard and Nikolaj Steenfatt**: "Terroir: Furniture in seaweed and paper"

17.45-18.00 End of day 1

18.15-19.30 Poster session

20.00 Conference dinner

KATTEGATCENTRET GRENAÅ
– et hav af oplevelser

midt
Central Denmark Region

Kyst- og Fjordcentret

Thursday October 9th, 2014

9.00-9.45 Piet Bogaert, Cargill: "How collaborations between the scientific community, suppliers and processors can ensure a sustainable seaweed industry"

9.45-10.05 Mette Nørrelykke, Aller Aqua: "Seaweed in fish feed - opportunities and limitations"

10.05-10.25 Harriet Fletcher, University of Leeds: "The Extraction and Quantification of Fucoidan from Brown Macroalgae"

10.25-10.45 Gilli Trond, Danish Technological Institute: "Blue Growth – what is it? The function og "blue growth" in European, regional, and national policy initiatives"

10.45-11.15 Coffee break

11.15-11.35 Peter Schiener, Queens University Marine Laboratory: "The impact of seasonality on the chemical composition of *L. digitata*, *L. hyperborea*, *S. latissima* and *A. esculenta* with the focus on bioethanol production"

11.35-11.55 Xiaoru Hou, Danish Technological Institute: "Ethanol production from late-summer-harvested brown seaweed *Laminaria digitata*"

11.55-12.15 Jenny Veide Vilg, Chalmers University of Technology: Seafarm - for a sustainable use of cultivated Swedish macro algae

12.15-12.35 Karen Mooney, Queens University Marine Laboratory: "Kelp cultivation in Northern Ireland: What works, what really doesn't and what people think about it"

12.35-13.45 Lunch buffet

13.45-14.05 Job Schipper, Hortimare: Advanced textiles for open sea biomass cultivation (AT~SEA): Status and next steps

14.05-14.25 Olavur Gregersen, Ocean Rainforest: "Ocean Rainforest and MacroBiotech - Offshore production of brown algae in the North Atlantic"

14.25-14.45 Ole Hertz: "Seaweed research in Qaasuitsup Kommunia, North West Greenland"

14.45-15.05 Annette Bruhn, Aarhus University, Silkeborg: "Geographical variation in biochemical composition of two Danish *Laminaria* species: *Saccharina latissima* and *Laminaria digitata*"

15.05-15.10 Closing session

Goodbye and see you next year
