

8TH NORDIC SEAWEED CONFERENCE SEAWEED AND SUSTAINABILITY

10-11. OCTOBER 2018

KYSTVEJENS HOTEL OG KONFERENCECENTER, GRENAÅ

PROGRAMME WEDNESDAY 10TH OCTOBER:

10.00 - 11.00	Registration
11.00 - 11.15	Welcome
11.15 - 12.10	Keynote speaker: Marie Magnusson, James Cook University, Australia The MACRO path to succesful demonstration scale production in the tropics
12.10 - 12.40	Alexander Handå, SINTEF, Norway: MACROSEA - A knowledge platform for industrial macroalgae cultivation in Norway
12.40 - 13.40	Lunch
13.40 - 14.05	Jens Legarth, FermentationExperts, Denmark: Co-fermented seaweed and rapeseed - effects on gut health in humans and pigs
14.05 - 14.30	Ditte Hermund, DTU & Louise Klinder, Melissa Aps, Denmark: New antioxidants from seaweed for cosmetical applications
14.30 - 14.55	Maria Zakharova, OLEOTEK: Extraction of value-added compounds from Saccharina longicuris and biological properties - innovation and entrepreneurship in Quebec, Canada
14.55 - 15.20	Bert Groenendaal, SION Industries, Belgium: Highlights of the EU SeaRefinery project
15.20 - 15.50	Coffee and cake
15.50 - 16.10	Maryam Maccorquodale, SAMS, Scotland: Bioreactor cultivation of kelp gametophyte in search of novel bioactive compounds
16.10 - 16.25	Signe Helle Ptak, SDU, Denmark: Optimizing fucoidan yield from Baltic fucus brown algae species
16.25 - 16.50	Rita Clancy, Eurida Research, Germany: The need of public dialogues for sustainable seaweed industries of the future
16.50 - 18.05	Poster session and Seaweed Market
18:40	Walk to the Kattegatcentre (15 min.) - meet at hotel entrance
19.00 - 22.30	Fish a' deli Circus and conference dinner surrounded by sharks in the Kattegatcentre
22:30	Walk back to Kystvejens Hotel & Conference center

AlgeCenter Danmark

PROGRAMME THURSDAY 11TH OCTOBER:

07.45 – 08.30	We take a walk at the beach and look at seaweed
08.55 – 09.00	Welcome back at the conference
09.00 – 09:55	Keynote speaker: Helena Abreu, ALGAPlus, Portugal: Seaweed and their derivatives, production and commercialization Ltd based in Ihavo, Portugal
09.55 – 10.25	Philip Kerrison, SAMS, Scotland: Carpospore production by <i>Plamaria palmata</i> as a new method for its cultivation
10:25 – 10:45	Coffee break
10:45 – 11.10	Peter Schmedes, DTU Aqua, Denmark: How to cultivate <i>Palmaria Palmata</i> - dealing with extreme nutrient-light regimes
11.10 – 11.35	Søren Ugilt Larsen & Nicolai Ma, Danish Technogical Institute: Ensiling of sea weed and conservation of sugars for biofuel production
11.35 – 12.00	Adrian Macleod, SAMS, Scotland: The development of seaweed farming in Europe - environmental impacts and prioritizing key knowledge gaps
12.00 – 13.00	Lunch
13.00 – 13.25	Dagbjørn Skipnes, Nofima, Norway: Thermal properties of <i>Saccharina Latissima</i> and <i>Alaria esculenta</i>
13.25 – 14.50	Tom Wijers, Van Hall Larenstein University, the Netherlands: Extraction of protein for fish feed
14.50 – 14.20	Dorte Krause, Aarhus University, Denmark: Blue Carbon
14.30	Goodbye for now!
14.30 - 15.00	Coffee and cake
15.00 - 20.00	Stakeholder meeting
